PROGRAMME

**Improve Technology !  
Save Resources !!  
Save Money !!!**

An Opportunity to Save Money-Get More From Less

# Clean Technology Fair

International Technology Fair for Clean Technologies  
under METABUILD Project

## METABUILD

Resource-Efficient Supply Chain for Metal Products in Buildings Sector In South Asia

On **30<sup>th</sup>** June 2018

at **BMICH Colombo - Sri Lanka**  
Nugasewana Hall, Mihilaka Madura

Organized by

National Cleaner Production Centre, Sri Lanka

*"Centre for Sustainability"*

# Clean Technology Fair

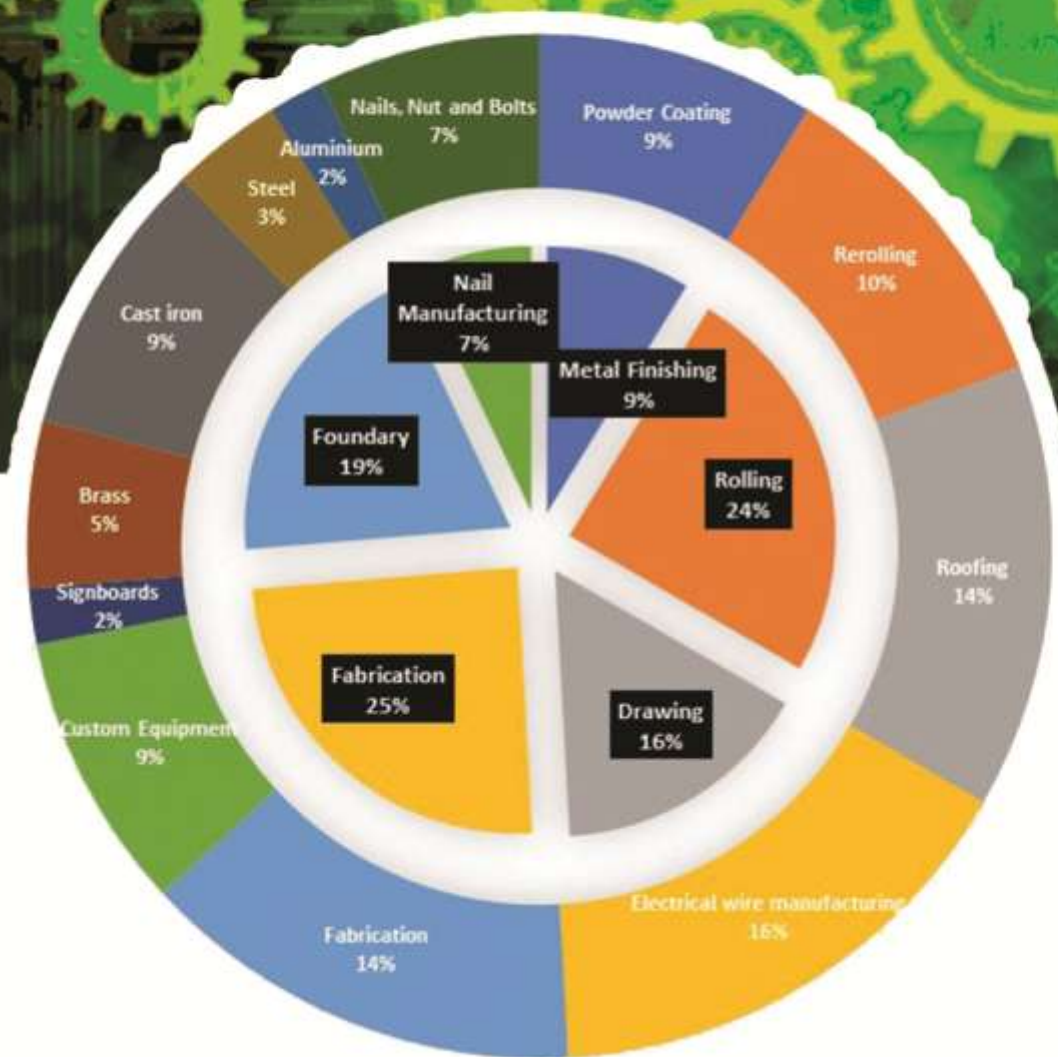

## Who will Exhibit

One of the main objectives of the project "METABUILD" is to bring together the technology suppliers who can provide technology solutions for the improvement of the Resource Efficiency in companies both those are supported by the project and the other. This will be an ideal platform to explore the potential market with unlimited scope for development, to establish new partnerships. We would like to encourage interested suppliers to participate for this technology fair to demonstrate your product and services under following categories,

Power factor controlling	IR guns	Air turbines	Dust extractors
Electrical maintenance	Flow Meters	Evaporative cooling	Wet scrubbers
HV/MV/PF Correction	O2 Sensors	AC services	Safety Equipment
Efficient motors	Insulation	Solar PV	Noise Control
VSD controllers	Heat exchangers	Solar street lighting	Efficient Air guns
Motorised valves	Fire bricks	TG/CHP	Service units
Electrical sensors	Solar parabolic/Solar tube	Biogas Digesters	Efficient Air Compressors
Pumps and blowers	LED	Solar Hot Water	Powder guns
Efficient foundries	Lighting controllers/Sensors	Water treatment	Energy Efficiency
RH Furnace modifications	Efficient Chillers	Solid waste management	ISO 50001 EnMS
Waste heat recovery	Cooling towers	Chemical Handling	Steel Fabrication
		Hazardous gas handling	Conveyors

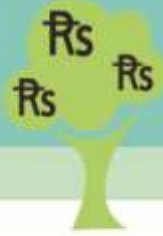

**STALL IS TOTALLY FREE OF CHARGE FOR EXHIBITORS**

# Metabuild Partnering Sectors

*In all these companies feasible investment opportunities has been identify for technology changes for energy efficiency, resource efficiency, improving productivity & quality renewable energy etc.*

# Clean Technology Fair

*Save money while you save the environment!*

## **WHY U SHOULD EXHIBIT**

- Back to back business opportunities
- Visits to potential industries and meeting onsite, for selected suppliers
- Opportunity to meet financial institutes
- Expose to the Technical sessions
- Opportunity to make a presentation about the products & services in the seminar conducted as a side event

## **STALL IS TOTALLY FREE OF CHARGE**

### **SHELL FACILITIES INCLUDE**

- One Table
- Two Chairs
- Two spot lights
- One Name Board
- 5A Plug Point
- Electricity
- Cleaning

*(All above facilities are free of charge)*
